**Kmatic**  
COMPACT AND SMART AUTOMATIC DRAIN VALVE

### AUTOMATE YOUR HYDRA EXPERIENCE

Automatic drain valve with timer, especially designed for Hydra series: a clean cartridge after each automatic wash.

USER FRIENDLY

DUST AND WATER PROTECTION

BATTERY POWER SUPPLY

SAFETY STOP

MANUAL WASH FUNCTION

DRAIN CONNECTION 1/2"

Now you can set the automatic cleaning of your Hydra cartridges. How?

Use your K-Matic, a compact and easy-to-install device that allows you to forget the manual cleaning operations of your self-cleaning filter. Easier done than said! Water and dust resistant (Ip54), K-Matic is simple to set by everyone. K-Matic works with a 9V battery, and its safety is ensured by a special drain shut-off in case of flat battery. A special manual wash function can be activated in case of excessive dirt, leaving you free to choose the perfect cleaning time.

## Certification

Housings are tested and certified under the most stringent procedures worldwide, in compliance with DM25 - Italy - and with the sanitary certification EAC/Ghostreghistrizia (Russia).

**SANIC is a registered trademark of ATLAS FILTRI srl.**

Range of housings with antimicrobial product protection provided by a silver based antimicrobial agent included in the plastic matrix with a specific injection molding technology. DP SANIC housings are suitable for every Point-of-Use (POU) and Point-of-Entry (POE) application, as single or multi-stage on-line filters. Thanks to the antimicrobial protection SANIC housings with SANIC filter cartridges are the most reliable sediment filtration systems for all drinking water application by keeping the filter cleaner for longer.

Powered by Microban<sup>®</sup> antimicrobial technology   
**MICROBAN**<sup>®</sup>

Microban<sup>®</sup> technology is not designed to purify drinking water, but to fight the growth of stain and odor causing bacteria on the housing and filter itself which could adversely affect filter life and performance. MICROBAN is a registered trademark of Microban Products Company.
