

BENCHMARK®

20 YEARS OF EXCELLENCE

Water Heaters
Water Treatment
Solar Photovoltaic

Benchmark excels in providing simple installations to customized Water Heating Solutions to discerning buyers.

Be it Heat Pump, Gas, Solar or Electric an amalgamation of technologies.

No wonder why our customers **Trust Us** when it comes to providing Hot Water Solution.

Setting new quality standards

Instant Gas Water Heater

New Introduction

- Eco-Friendly Heat Exchanger
- Copper 99.9%

6L WINNER Intelligent
1.4 Kg Heat Exchanger

6L PRIME-Intelligent
1.6 Kg Heat Exchanger

Capacity: 6, 8, 10, 14 & 16L

Storage Gas Water Heater

- ◆ Honeywell ICON System™
- ◆ Vitraglas® Lining
- ◆ Hydrojet® Total Performance System
- ◆ Defender Safety System®
- ◆ 6 Year Warranty on Tank*
- ◆ Resettable Thermal Switch
- ◆ 2" Non-CFC Puf Insulation
- ◆ T&P Relief Valve

Capacity: 114, 151, 189, 284, 380L

American Certified

Electric Water Heater

Features

- ◆ Adjustable Capillary Thermostat and Cutout
- ◆ Glass Coated Inner Tank
- ◆ Incolloy Heating Element
- ◆ PUF Insulation
- ◆ 4 in 1 Multi Function Safety Valve
- ◆ High Pressure Tolerance

Capacity: 3, 6, 10, 15, 25, 35, 50, 70, 100, 140, 200, 300, 400, 500Ltr

Heat Pump System

Micro Channel Heat Exchanger

- ◆ Glass enamel coated steel inner tank
- ◆ High COP
- ◆ Low noise level
- ◆ 50 mm PUF insulation
- ◆ Suitable for low temperature environment
- ◆ User friendly controller

Split Heat Pump
Capacity: 150, 200, 300, 500L

All in One Heat Pump
Capacity: 160, 200, 300, 420L

Heat Pump System (Commercial & Swimming Pool)

- ◆ Glass enamel coated steel inner tank
- ◆ Tube in shell heat exchanger
- ◆ High COP
- ◆ Eco-friendly refrigerant
- ◆ Low noise level
- ◆ Suitable for low temperature environment
- ◆ User friendly controller

Commercial Heat Pump

Capacity: 9.3, 13, 19, 39, 56, 72Kw

Swimming Pool Heat Pump

Capacity: 18, 31, 40, 52, 70, 90Kw

Made in Europe

Solar Water Heater

Water storage tank: Consists of hot rolled steel, 2.5mm thick with double internal layer of enamel, processed at 860°C, according to DIN 4753 Standard.

Double jacket heat exchanger: Consisting of cold rolled steel, 1.5mm thick, for the function of the closed loop circuit.

Absorbing Surface: High selective treatment (with $\alpha=95\%$, $\epsilon=5\%$) on aluminum surface with minimum thickness 0.5mm.

Laser welding between copper risers and aluminum absorbing surface.

Glazing: Tempered solar glass, with 91.00% minimum solar transmittance measured in SPF laboratory.

Capacity: 200, 300, 500L

EURO A closed loop jacketed Solar Water Heater

Made in Europe

Certifications

IMFB BY

Alkaline Water Ionizer

Benefits of Ionized Water

-  Antioxidant
-  Boosts Immunity
-  Detoxifies the Body
-  Hydrates Skin
-  Energizes Human Body
-  Effective Cleansing & Washing

Solar Photovoltaics (PV)

Our Strength

EPC

Engineering, Procurement and Construction

ENGINEERING

- Solar Plant layout
- Yield Analysis
- Technical Planning

COMMERCIAL & TECH. MANAGEMENT

- Cost Calculation
- Real-Time Performance Analytics
- Up gradable Tech. options

PRODUCT MANAGEMENT

- From A-Z, We plan the whole process taking care of every detail to guarantee project completion to highest standards

PROCUREMENT & PURCHASING

- Compliance with Highest Industrial Standards
- Logistics Co-ordination

CONSTRUCTION

- Energy Efficient Construction
- Solar Tracking Systems
- Site Survey and after site Completion Quality Inspection

COMMISSIONING & ENERGY AUDITS

- Thermal Inspection (Drone Technology)
- I-V curve Analysis
- Old sites Performance Optimization
- Proactive Maintenance & Service
